

COMPANIES HOUSE | PRESS RELEASE

16th December 2016

e-Search

Companies House Gibraltar is pleased to announce the introduction of its latest online service: the e-Search. e-Registry users will now be able to conduct electronic searches of all active companies registered in Gibraltar since 1931. They will be able to inspect all statutory documents filed with the Registrar of Companies, in a similar way that they can search the physical file at the registry. The electronic file will sit on their e-Shelf for a period of 30 days.

Companies House Gibraltar continues to work hard to be at the forefront of implementing electronic services.
