Surcharges – Credit Card Transaction

Please note that as from Monday 11th April 2016, Companies House will charge a 2% surcharge on all payments made by Credit Card. Debit Cards will be accepted at no charge.

Banks have increased the charges for cash handling and moving forward will most likely increase these again and charge a fee for cheques. We will not add a surcharge for any cash or cheque payments at this time. However, we would like to encourage our clients to provide payment by Debit Card or Bank Transfer (account holders only) whenever possible.
