

Important Notice

Requirement to declare the SIC code upon registration or incorporation

As from the 1st January 2022 all companies incorporated, registered or re-domiciled in Gibraltar must declare to the Registrar of Companies the nature of their activity when they apply to be registered or incorporated. This must be done using the relevant activity code ("SIC code").

The forms for incorporation, registration or re-domiciliation of a company in Gibraltar have been amended to reflect this new requirement. The amended forms are available for download from our website in the section entitled "Forms" under the heading "Companies".

Companies House Gibraltar's list of standard industrial classification of economic activities can be accessed on the following link:

<https://www.companieshouse.gi/publications/FAR20.pdf>

The requirement for all companies registered in Gibraltar to declare the nature of their activity as from registration stems from the latest MONEYVAL peer review and OECD inspection of Gibraltar.

Companies incorporated, registered or re-domiciled in Gibraltar will continue to need to declare their activity code on their Annual Return.
